

## GOOD SUGGESTIONS

Made by the Republicans of the Various Districts

## AT THEIR MEETINGS LAST NIGHT.

The best Attendance on Record in Nearly all the Wards, and a Feeling of Enthusiasm Prevails all over the County—The Names of Those Suggested for Different Positions.

The Republicans of the various districts in the county met last night to suggest names to be voted on at the primaries next Saturday for district officers and delegates to the county convention, which meets next Monday. The attendance in nearly all the districts was larger than ever before, which is the more significant of interest on the part of the Republicans, because there is no special fight on. It is conceded that T. C. Moffat will be nominated for sheriff without a fight, all of the others named in connection with that office having declined. Mr. Moffat will be a creditable candidate, as well as a strong one before the people, and is eminently fitted to fill the office ably. S. O. Boyce is also the only aspirant known for the nomination of prosecuting attorney, and there is no contest worth mentioning for any other position.

The results in the different meetings last night are given below:

## MR. LOOS DECLINES

To Become a Candidate for Sheriff and Gives His Reasons.

A strong pressure has been brought to bear on Mr. Hugo L. Loos by Republicans throughout the county to get him to consent to allow the use of his name in connection with the Republican nomination for sheriff. Mr. Loos has repeatedly assured the gentlemen who have approached him on the subject that he did not see how he could, in justice to himself, enter the field, but they have insisted and the movement to induce him to announce himself has grown into the proportions of a large-sized boom.

To an INTELLIGENCER reporter yesterday, Mr. Loos said:

"I wish you would say for me that I feel very grateful to my friends for the honor they have done me in the matter, and that I heartily appreciate the compliment, but it is impossible for me to become a candidate for the nomination for sheriff, or to make the canvass should I be nominated. There are two reasons for this: In the first place my business is of such a character as to demand my entire time and attention. It is constantly growing and I do not think it would be right to neglect it to devote my time to a political canvass or to accept an office for four years should I be elected.

"In the second place, some time since I assured Mr. T. C. Moffat that I would not be a candidate against him for the nomination, and he has since made his canvass and announced himself for the place. Now, in view of this fact, I do not think it would be fair to Mr. Moffat for me to enter the field against him at the eleventh hour. He has been perfectly frank with me, and I would not violate that confidence for all the offices in Ohio county."

## THE PEWIKY STATION

Project Again Discussed in Committee Meeting.

## A COMPROMISE MAY BE OFFERED

Two Council Committees, the County Commissioners and the Railroad Company Represented—The Ground to be Gone Over Again—The Board of Public Works' Contracts.

At the last meeting of Council the board of county commissioners requested that the city reopen negotiations with the P. W. & Ky. railroad company, and to see if some arrangement could not be made by which the objections offered to the granting of a portion of the wharf for depot purposes to the company could be removed. The matter had been before Council twice before, the company trying to get a grant of a portion of the wharf, but was rejected by the city's legislative body, owing to the objections made by the representatives of the river shipping interests.

The Council committees on railroads and wharves, a committee from the board of county commissioners, and several gentlemen representing the railroad company met last evening in the second branch Council chamber. The city fathers present were Messrs. Farrel, O'Kane, Brock, Irwin, Craig, Campbell, Kenney, Zoekler, O'Malley and Happy. The board of county commissioners was represented by Messrs. Gruse, Vollinger, McGinty, Koch and Hall. Among the directors of the railroad company present were Messrs. W. P. Hubbard, Joseph Speidel, and H. K. List. Wharfmaster Crockard was there to look after the river interests, and was accompanied by Mr. J. D. Ewing, the rivermen's attorney. Mr. Becker, chief engineer of the railroad, was also on hand.

Mr. W. P. Hubbard arose and stated that the railroad company had prepared no other plans than the ones already rejected by Council. It had nothing else to offer, but would be glad to hear any objections that were urged against the proposed plans, to see if by any modification a compromise agreement could be reached.

Mr. Gruse suggested that a time be fixed for the joint committee

## TO GO ON THE GROUND

and examine again into the matter. He thought that surely some arrangement could be made by which the city could secure the \$50,000 depot promised by the company, and at the same time satisfy the reasonable demands of the river interests.

The old plans of the proposed improvements on the wharf were produced by Chief Engineer Becker, and members of the committee looked them over.

Dr. Campbell suggested that the matter had been before Council twice and had been as often rejected. He himself was in favor of giving the company a chance.

After reminding the committee that the county was a large holder of Pewiky stock, and that the building of a depot would increase the tax valuation of city property Mr. Gruse suggested that the return of the city engineer, who was absent from the city, be awaited, and that the city engineer and the company's engineer could go over the ground, and stake it off. The committee could then meet and act intelligently.

Mr. Ewing said that the river men had opposed no encroachments upon the wharf, until the present plan of the railroad company came before Council. The river trade had picked up wonderfully in the last few years, and the river interests foresaw that they would be seriously inconvenienced now, and more so in the future, were the city to give to the company the portion of the wharf demanded by the proposed. He would suggest that when the city engineer and Mr. Becker would meet to go over the ground, the rivermen would like to be present, in order to explain their objections to the plans proposed, so Mr. Becker would be able to act intelligently in making modified plans. The wharf was no larger than it should be, and even its present facilities.

## WOULD BE INADQUATE

In a few years. Mr. Hubbard said he was glad to hear the objections which the river men offered, and that the company would strive to see if some arrangement could not be made. He thought that if the south end of the wharf was improved it would add five feet to every two the new depot would take away.

After some further discussion it was agreed that as soon as City Engineer Hoge returns to the city he and Engineer Becker shall go over that part of the wharf affected by the proposed new depot, and that the joint committee shall meet on that day and prepare a report for Council.

## A RIVER MAN'S VIEWS.

"I notice," said a river man to an INTELLIGENCER reporter yesterday, "that the Pittsburgh, Wheeling & Kentucky railroad company has renewed the agitation about a new depot at the foot of Eleventh street. I wish the Council committee which is to meet this evening had been down here this morning. The wharfboat was piled full of freight clear up to the roof. The stuff was so plentiful that it was scattered all along the wharf, and obstructed the gang plank. Teamsters were fighting and quarrelling for precedence. And yet, with this evidence of the want of wharf facilities confronting them, certain people are still endeavoring to give to the railroads a big slice of the wharf."

"At present all the boats are busy and their captains have no time to waste, waiting on the committee. Perhaps the agitators think they can work the scheme better while the rivermen interested are not about."

## BOARD OF PUBLIC WORKS

Award of Street Paving and Sewer Laying Contracts.

At yesterday evening's meeting of the board of public works the bids for paving the city streets and putting down sewers were opened and the contracts awarded. George W. Lemons was awarded the entire contract for paving all the streets as provided by Council, and to William Carney & Son and to H. D. Rumble were given the contract for laying the sewers.

The city will need 543,000 paving bricks this year, and the contract was divided between three companies. Stratton, Hinkle & Stratton got the contract for 250,000, the American Fire Clay Company for 150,000, and the John Porter Company for 143,000.

The prices on the paving and sewer laying bids were various. Some were very low, so low that the board thought the work could not possibly be done for the price.

## WOULD BE SUICIDES.

Two Men Try to Shuffle Off, and One May Be Die.

At six o'clock yesterday evening August Schrumph was reposing on the floor of his residence, below Forty-Third street, sleeping peacefully. At five minutes after six August awoke, and looking at the clock, said to his family, in a solemn voice: "My time has come."

Walking out to the barn, Schrumph threw a rope over a rafter, tied a noose in one end and launched himself into eternity, drawing his feet up to keep from touching the floor. The family heard him thrashing around, rushed out and cut the rope. On returning to the house Schrumph took his razor and began to hone it. He announced to the crowd that he was about to cut his throat. The razor was taken away from him, and August had recourse to his pocket knife.

"Come around in about ten minutes," said he to the crowd which had assembled, "and you'll see the end of it."

Somebody caught hold of his hand, and August became raving. While some held him the rest went for a policeman. Schrumph was taken to police headquarters, where he soon quieted down. About 9 o'clock he was taken home by his brothers.

It was said on the South Side that August's attempt at such public suicide was only a bluff. Others say that the injuries he received, by being struck by a train last year, cause him to occasionally become moody and despondent.

William Brost, who lives up on the National road, in the First ward, cut his throat with a razor Saturday evening, and the fact was kept quiet by the family until yesterday, when his condition was reported critical.

Brost came home drunk, and was taken to task by his wife, when he got his razor and made a wicked slash at his throat. But for the fact that members of the family who were present caught his arm there would have been no doubt of the success of his effort, as there now is.

## DEATH OF MR. PARSONS.

The Well Known Photographer dies after a Long Illness.

Mr. J. A. H. Parsons, the well known photographer who has had a gallery in the McLain block for years, died yesterday morning at his home on South York street, Island, aged forty-five years. Mr. Parsons had been confined to his bed for weeks with kidney trouble, and several days ago his physicians said he could not recover. He was similarly attacked over a year ago, but a surgical operation performed as a desperate remedy saved his life, and he recovered sufficiently to attend to his business, but was never thoroughly restored.

He leaves a wife, the daughter of Mr. Gordon, of Washington, Pa., and four children. The funeral will occur today, the remains being taken to Washington, Pa., for interment, on the 1:30 p. m. train on the B. & O. road. The obsequies will be in charge of the Knights Templar, Mr. Parsons having been a knight.

He was one of the best posted and most enthusiastic photographers in the country, was a genial and pleasant man, much liked by all his associates, and his death causes sincere sorrow in a wide circle of friends.

They were reassured, when informed that the river would not reach over 23 feet on the present rise. The Island folks were afraid they would have to move their furniture upstairs.
